Planetary health & Implications of urbanisation

**Environment**

Emergence & exposure risk

Transmission & Ecological disruption

**Contagion**

[Pathogen/pollutant]

**Host**

- Overcrowded/inadequate shelter
- Biodiversity loss
- Connectivity

**Vulnerability**

- Air pollution
- (Healthy) Food security
- Healthcare

LIFE SUPPORTING

Natural
- Air (3)
- Water & waste (6)
- Climate (13)
- Biodiversity (14,15)

Built
- Food & agriculture (2)
- Transport (11)
- Green & blue spaces (11)

Social & societal
- Education (4)
- Work & economic growth (8)
- Innovation (9)

Healthcare
- Universal Health Coverage (3)

LIFE

Consumption (12,14,15)
- Food security & healthy food access (2)
- Recreation
- Air pollution (3)
- Injury (3)
- Access to quality care (3)

Risk behavior & exposure
- Diet (2, 3)
- Activity (3)
- Smoking (3)
- Alcohol (3)
- Hygiene (6)

Health risk and outcomes

Systems for Health
- Poverty (1)
- Peace (16)
- Partnership (17)

Resilience (proactive and reactive)

Gender (5)
- Inequalities (10)

Integrated governance of interdependent risks and conflicting systems (SDGs)

Gender

Gender (5)
- Inequalities (10)

Consumption (12,14,15)
- Life stage

Waste pollution (11)
- Flooding (11)
- Stress & Safety (3, 11)

Human settlement encroachment (14, 15)
- Biodiversity loss (14, 15)
- Migration
